

# 60 YEARS OF SUCCESS.

Phenoxy herbicides have been controlling your grassland weeds such as Docks, Thistles and Nettles for 60 years and still provide the only solution for many weeds. Phenoxyes mimic natural plant hormones and as a result work as well now as they did when they were launched. There are no issues with residues in manure with phenoxyes.

Contact your agronomist for the best phenoxy product for your grassland weed problem now.

## **Agritox, Depitox, Lupo and Thrust.**

Details of application timings and rates are detailed in Nufarm labels and product literature; both of which can be accessed from our web site at [www.nufarm.com/uk](http://www.nufarm.com/uk). Alternatively ring the Nufarm helpline on 01274 694714, Monday-Friday 9 am - 5 pm.

Use plant protection products safely. Always read the label and product information before use.
